

Cover Letter

Dear Executive Director of Web Services,

I am writing to express my strong interest in the position of Design and Development Engineer at Susan G. Komen. With my extensive experience in client-side and server-side development, database design, and cloud modules, I am confident in my ability to contribute to your team and drive the success of your projects.

Throughout my career, I have demonstrated a proven track record in designing and developing robust software solutions. I have successfully designed and implemented complex database schemas, ensuring efficient data storage and retrieval. My leadership skills have allowed me to provide guidance and direction for testing software, guaranteeing the delivery of high-quality, responsive, and efficient applications.

I am highly proficient in developing APIs and possess a deep understanding of troubleshooting and debugging techniques. My expertise extends to mentoring and coaching fellow developers, enabling them to enhance their skills and deliver exceptional results. I am committed to staying updated with the latest industry trends and have hands-on experience in using responsive web development principles, including CSS/JS frameworks such as Bootstrap and Foundation.

Moreover, I have a strong background in requirements analysis, utilizing techniques like user stories, use cases, and informal modeling. I have also built highly-scalable web applications and cloud-native applications, leveraging my in-depth knowledge of developing user interfaces that seamlessly communicate with APIs. With over 10 years of experience in middle-tier and back-end languages, including PHP and C# .NET, I possess the technical expertise to meet the demands of this role. Additionally, I have 8+ years of experience in front-end languages and libraries, such as HTML/CSS, JavaScript, XML, and jQuery. My proficiency in data modeling further enhances my ability to contribute effectively to your projects.

My passion for continuous learning and growth drives me to seek innovative solutions and stay at the forefront of technological advancements.

I am excited about the opportunity to join the talented team at Susan G. Komen and contribute to its ongoing success. Thank you for considering my application. I would welcome the chance to discuss further how my skills and experience align with your needs. Please find my attached resume for more information.

Please feel free to contact me at your convenience. Thank you for your time and consideration.

Sincerely,

Cesar Granda
